

ADVANCED SKILLS IN Laparoscopic Gynecologic Surgery

CME Date: 8-9 October 2026 | Course Fees: AED 3500+ 5% VAT
| Target Audience: Gynecologists, Residents, and Trainees

The Advanced Skills in Laparoscopic Gynecologic Surgery course is designed for gynecologic surgeons seeking to enhance their expertise in advanced minimally invasive techniques. Through an intensive, hands-on program led by internationally recognized faculty, participants will gain in-depth understanding of operative setup, surgical principles, and complex laparoscopic procedures. This course combines evidence-based lectures, expert demonstrations, Live Animal Lab Surgery to provide participants with a comprehensive and practical learning experience in advanced laparoscopic gynecology.

COURSE OBJECTIVES

By the end of the course, participants will be able to:

- Demonstrate safe and effective laparoscopic entry techniques.
- Apply best practices in operative theatre setup and equipment handling.
- Perform advanced laparoscopic procedures for gynecologic surgery, including suturing and dissection.
- Manage intraoperative challenges and complications with appropriate strategies.
- Integrate advanced laparoscopic skills into routine clinical practice to improve patient outcomes.

CME – UNDER APPLICATION WITH SHA

This course is intended for:

- Practicing gynecologists and obstetricians with prior experience in basic laparoscopy who wish to advance their surgical skills.
- Senior residents and fellows in gynecology seeking structured hands-on training in advanced laparoscopic techniques.
- Surgeons with an interest in minimally invasive gynecologic procedures aiming to expand their operative repertoire.
- Healthcare professionals involved in surgical training and education in gynecology.

PROGRAM OUTLINE

DAY 1: Thursday, October 8, 2026		
TIME	TOPIC	FACULTY
09:00 - 09:30	Laparoscopic Entry Techniques	Prof. Mauel M Ianieri, Italy
09:30 - 10:00	Essentials To Know In Endometriosis Surgery	Prof. Mauel M Ianieri, Italy
10:00 - 10:15	Operative Theatre Set Up And Equipments	Rn. Johannes San Juan, UAE
10:15 - 10:30	Coffee Break	
10:30 - 11:00	Laparoscopic Anatomy In Hysterectomy	Prof. Giovanni Panico, Italy
11:00 - 11:35	Basic Principles & Practice Of Laparoscopic Suturing	Prof. Rajesh Devassy, UAE
11:35 - 12:30	Laparoscopic Pelvic Organ Prolapse (POP) surgery	Prof. Giovanni Panico, Italy
12:30 - 13:30	Lunch Break	
13:30 - 14:00	Laparoscopic Myomectomy Master Class	Prof. Rajesh Devassy, UAE
14:00 - 17:00	Hands-On Session, Dry Lab: ESGE Academy - GESEA Training - Level 1 / Level 2	Prof. Rajesh Devassy, UAE
	Laparoscopic Skills Training and Testing Method (LASTT)	Rn. Johannes San Juan, UAE
	Suturing and Knot Tying Training and Testing Method (SUTT)	Rn. Johannes San Juan, UAE
	Practicing Suturing Skills On Tissue Models	Prof. Giovanni Panico, Italy

DAY 2: FRIDAY, October 9, 2026		
TIME	TOPIC	FACULTY
08:30 - 09:00	Coffee	Prof. Rajesh Devassy, UAE Prof. Giovanni Panico, Italy Dr. Nicolas Krystek Galdos-Tanguis, Spain Rn. Johannes San Juan, UAE
09:00 - 13:00	Hands-On Live Animal Lab Surgery	
	Ovarian Cystectomy, Salpino-Oophorectomy	
	Hysterectomy, Myomectomy	
	Pelvic Floor Repair	
13:00 - 14:00	Lunch Break	Rn. Johannes San Juan, UAE
14:00 - 16:00	Live Animal Lab: Dissection, Resection, Repair Of Bladder, Bowel & Ureter
